Aspiring front-end developer with a strong foundation in HTML, CSS, and JavaScript, and experience creating responsive, user-friendly web interfaces. Proficient in Git for version control and eager to contribute to innovative web solutions while growing professionally in a collaborative environment.

SKILLS

1. **Programming Skills:** HTML5, CSS3, JavaScript.
2. **Front-end frameworks:** ReactJs
3. **TOOLS :** Visual Studio Code
4. **Operating System :** Windows
5. **Version Control System :** GitHub
G. **Software Development Life Cycle :** Agile Methodology

PROJECTS

1. *Restaurant Menu Webpage* –
   - Designed and implemented a fully responsive restaurant menu webpage using **HTML, CSS, and JavaScript**.
   - Created an intuitive user interface with a clean navigation bar, dropdown menu for food categories, and visually appealing product cards showcasing dish images, descriptions, and prices.
   - Integrated interactive features such as a **JavaScript-based dynamic dropdown menu** for seamless browsing.
   - **Gained valuable experience in** front-end development**,** user experience design**,** and responsive design **principles.**

2. *Dynamic Website on Hindu Dashaavatars -*
   - Built a web application showcasing the ten incarnations using HTML, CSS, and JavaScript with OOP concepts.
   - Created a clean **header and dynamic dropdown menu** for smooth navigation.
   - Designed responsive product cards displaying each avatar's image and details.
   - Conducted cross-browser testing to ensure optimal performance.
   - Incorporated cultural significance by honoring Vijayadashami (Shastrapuja), symbolizing the website as a modern tool of strength.

3. *Interactive Web Elements*
   - Developed interactive UI components using HTML and CSS, including hover-triggered dropdown menus.
   - Explored JavaScript event handling (click, dblclick, mouseover, mousedown) to enhance user interactivity.
   - Focused on creating dynamic, responsive experiences with smooth transitions and event-driven features.

4. *Card Design Project -*

- Designed and developed visually dynamic and responsive card components using HTML, CSS, and JavaScript.
- Focused on responsive design principles to ensure optimal display across different devices and screen sizes.
- Improved proficiency in front-end development by implementing advanced CSS techniques like flexbox and grid to create visually appealing and flexible layouts.

5. *Responsive Webpage Project –*

- Designed and built a fully responsive webpage using **HTML** and **CSS**, focusing on **user-friendly** and **visually appealing** layout.
- Gained hands-on experience in **front-end development** and responsive design techniques.
- Enhanced skills in creating **mobile-first** designs, ensuring optimal performance across devices.

E D U C A T I O N
